TENSION SLOTS adapts these successful core game titles to a 10-line version:

High wins are guaranteed in the Egyptian-themed thriller **MAGIC PHAROAH™** now available as a 10-liner! The highest symbol, the *Pharaoh*, spreads his influence to his left and right for more wins.

TREASURES OF THE PYRAMIDS™ is now available as a 10-liner! Players will love the *Stacked Symbol Feature* where in each spin, one symbol appears stacked on all 5 reels giving the players more chances to win.

SPHINX WILD™ features a stacked symbol approach combined with the *Golden Mask Surrounding Wild Feature*. Pyramid scatter symbols trigger the *Free Game Bonus* selection screen.

The **MERMAID OF THE NILE™** shows players all the sunken treasure chests. Three or more *Ship* symbols appearing on screen trigger the *Sailing Ship Bonus*. During this special free games bonus all *Ship* symbols turn into wild symbols and represent the "Wild Stays and Nudges" feature.

In **LINE ACTION** players may choose between the following core games:

Meet the majestic Tiger which acts as the top symbol as well as a two-position high wild symbol in **Golden Jungle™**. Each *Statue* symbol will activate a Wild icon displayed above the reel. Collecting 4 icons turns the entire reel wild for 3 spins.

Come and explore mysteries in **ICY WILDS™**. Stacks of high value symbols appear frequently, turning a full reel wild for the next purchased game. This Wild rule and the 4-fold top paying symbol offers players a very high chance for awesome wins.

In **PHAROAH PRINCESS™** players discover ancient Egypt with all its miracles. The **GIGANTIC WILDS™** give the chance for great wins whereas the unique slow motion tension spin rounds up this exciting gaming experience.

CLASSIC SLOTS features the following traditional volatile, low-line games:

I LOVE FRUITS™ is a classic slot game with all symbols appearing stacked except the *Heart* symbol. Therefore the game offers good chances for very high wins.

JUICY ROYALE™ has easy understandable rules with high wins. Some symbols have a golden frame and if these are part of a winning combination, the *Multiplier Feature* will be triggered. The number of matching symbols scattered on screen defines the multiplier for the line win.

THRILLER JACKPOTS features this proven top-performing **CASH FEVER™ HOT & WILD** standalone progressive title:

Grab your bullwhip and follow **ACTION JACK™** on a thrilling escapade! The highest-paying symbol, *Volcano*, appears frequently. All symbols except the scatter symbol occur stacked. The **CASH FEVER™ Bonus** is triggered by three **CASH FEVER** symbols anywhere on screen.
