**EPISODIC GAMING**  
★★★★★

IGT's first 5-level progressive link featuring EPISODIC GAMING!

# EGYPTIAN GOLD

**Take a journey through Egypt and discover a brand new playing experience!**

EGYPTIAN GOLD™ is our first 5-level progressive link using EPiSODiC GAMiNG™. The Egyptian themed support titles are available as single games or multigame package on the stunning OXYGEN™ cabinet.

## THE CONCEPT

On his journey through Egypt, the player unlocks more features and additional bet options, making more action available. Beginning with Status 2, the Bonus Selection starts, enabling the player to pick his preferred bonus feature. When the player reaches the highest status, an additional award is randomly revealed by Tutenchamun. In the 5-Level Progressive Playoff, the player has to choose Sarcophagi to collect treasures and he can win up to 5 progressive jackpot levels at the same time.

## GAMES

Cleora™, Nefturi™, Ramosis™, Nuit & Horus™

## SPECIAL FEATURES

### EPiSODiC GAMiNG

As the player progresses through the game during one session, he can save his current status and re-activate this status during the next play session. From status to status the player gets more features, additional bet options and in the highest status the chance for an additional big win amount revealed by *Tutenchamun*. A map is displaying his journey.

It is possible to login either by creating an account (username + password) via the onscreen keyboard or to add a status code which makes it possible to play anonymously. We recommend to login so that the player's status is saved in addition to his status ticket.

### WILD STAYS MOVES AND PAYS

**Nuit & Horus** features the innovative *Wild Stays, Moves and Pays* experience. If the wild symbols occur 4-fold stacked they will transform into one big symbol, covering all reels and moving one reel to the left in the next purchased game with the same bet option. The *Wild Stays, Moves and Pays* functionality is available with any bet.

## BONUS FEATURES

### GOLDEN ANKH BONUS

The *Golden Ankh Bonus* is triggered with the *Green Ankh*, *Red Ankh* and *Blue Ankh* on reels 2, 3 and 4 respectively. Choose your favourite Ankh and win either a *Mystery Win*, the *Free Games Bonus* or the *Egyptian Gold Bonus*.

### EGYPTIAN GOLD BONUS

The player has to choose 1 from 5 *Sarcophagi* to reveal up to 5 symbols. The symbols will move to the upper screen to fill the empty spaces next to the corresponding jackpot levels. 5 equal symbols trigger the respective jackpot. The player can win up to 5 jackpot levels at the same time.

### FREE GAMES BONUS

All four supporting titles offer an individual *Free Games Bonus* with the possibility to re-trigger the *Golden Ankh Bonus*.

### PYRAMIDS BONUS

Beginning with status 2 the player may choose the *Free Games* or *Pyramids Bonus*. He starts to pick stones to reveal credit amounts, multipliers or a *Golden Ankh Bonus* re-trigger.

Beginning with status 3 the player has a new additional bet option. By pressing the **MULTI ACTION** Button, the player can play up to 4 games simultaneously on 1 machine.

### ANCIENT WHEEL BONUS

Beginning with status 4 the player may choose between the *Free Games*, the *Pyramids Bonus* or the now activated *Ancient Wheel Bonus*. A combination of 2 wheels will award the player with credit wins, multipliers, re-spins or a *Golden Ankh Bonus* re-trigger.

### TUTENCHAMUN'S MYSTERY TREASURE

The final status 5 awards the player with a very high randomly triggered mystery win.
