GAMBLING GREEN DELUXE

EDITION 5

EXPERIENCE THE WEALTH OF CHOICE!

All games below are included in the **GAMBLING GREEN™** game suite!

In **LINE ACTION** players may choose between the following core games:

BIG CITY 5'S™ offers an innovative *Pot Feature* and an exciting *Free Games Feature*. The game is ideal for bonus chasers and players looking for an excellent balance between „time on device“ and volatile game play.

In **GYPSY MOON™**, the *Gypsy* is wild. Three or more scattered *Astro Sign* symbols trigger the *Gypsy Moon Free Game Feature*, where players can win up to 600(!) free games.

In **GOLDIFY™** players can “goldify” symbols by touching them. The base games’ volatility depends on the player selection and so does the bonus.

SPHINX WILD™ features a stacked symbol approach combined with the *Golden Mask Surrounding Wild Feature*. *Pyramid* scatter symbols trigger the *Free Game Bonus* selection screen.

THRILLER JACKPOTS features this proven top-performing **CASH FEVER™** standalone progressive title:

Players can experience the 2-level *Circle of Cards Bonus* in **GYPSY FORTUNE™** as well as the *Mystic Moon Bonus* in addition to the well-known **CASH FEVER Bonus**.

CLASSIC SLOTS features the following traditional volatile, low-line games:

The magical coins of **SPHINX™** take players on a mystical journey revealing hidden treasures in the bonus features.

In **BRILLIANT FRUITS™** all wins are paid left to right only. This classic slot game pays the top award for 5 *Diamond* symbols on a pay-line and has stacked symbols on all reels.

GAMBLERS' CHOICE features top performing games in an extremely volatile version with rich-paying bonus features:

In the *Free Game Bonus* of **GYPSY MAGIC EXTREME™** players can choose out of different combinations of free games with multipliers. All symbols appear stacked for very high wins.

Come and explore the diamond filled cave of **MIGHTY MINER™ EXTREME** where the *Miner* is wild and substitutes for all symbols except scatter.

WINNING NUMBERS features the world-wide casino classic:

Available in both European (0) or American (00) roulette, and featuring two modes of play to suit players’ preferences, **Master ROULETTE™** offers bet pattern memory, draw history, and on-demand previous game details. Superior 3D animation brings the ball and wheel to life on the top screen.
