

# BEJEWELLED™

Bejeweled® will be the crown jewel on your casino floor

Introducing another PopCap® casual game favorite, now available as a slot machine offering distinctive game mechanics and action packed game play.

#### BEJEWELLED FEATURES:

- True to one of the top casual game licenses of all time, incorporating special symbols and gem swapping
- Player's choice of six bonuses, offering the choice between skill and chance
- Unique approach to betting with boosts
- Three-level pot feature

## MAIN GAME

**BOOSTS** - Players can select from three game boosts by paying 25 credits x the active bet step each for the ability to pick from 1 to 3 boosts. In the “Multiplier Boost”, a multiplier gem appears on screen and wins are multiplied by 2x to 10x the win amount when matched. In the “Mystery Gem Boost”, a question mark gem turns into a regular or special gem. In the “Scramble Boost”, which can occur at the end of the game, eight rows of gems on the game board are scrambled horizontally for a second chance win.

**BASE GAME** - In the base game, seven colored gems collapse and automatically make matches. A match of three gems of the same color pays a credit prize while a match of four or more gems of the same color pays both a credit prize and creates a special gem. Players get paid when special gems are created and when they detonate.

**BEJEWELED BURST FEATURE** - A mystery-triggered mini game is activated frequently. Players swap gems until no more moves can be made.

## BONUS GAMES

Bejeweled offers six entertaining bonuses triggered by three Bonus Gems in collapses. Players always have the chance to choose between three skill-based and three chance bonuses.

### CHANCE BONUSES

**ALCHEMY** - Ten free games are awarded and players attempt to turn the full board to gold to win 10 more free games.

**BURIED TREASURE** - During 10 free games the goal is to make matches that unearth three pieces of treasures, resulting in 10 more free games.

**BALANCE** - Ten free spins are awarded and players must collect 15 blue gems and 15 red gems to win 10 additional free games.

## 3 LEVEL POT FEATURE

Players will be awarded a level when a level gem is involved in an event on the main game screen. The Gold level is awarded with the Blue Level gem, the Silver level is awarded with either the Yellow or Purple Level gems, and the Bronze level is awarded with Red, Orange, Green, or White Level gems.

8x8 gems with a max bet of 375 credits. Denominations available in 1 cent.
