# eXtra Games

When on a higher bet, the player is awarded with monetary prizes and Extra Games (XG). The number of XG's awarded depends on the bet and the winning combination. The cost of each XG is 1 credit and the average prize is R100. The number of XG's the player is allowed to play is shown in the center of the wheel that appears on the bonus screen. The top position of the wheel is a XG container. If the cursor stops on the XG container, the number of XG's that the

player is allowed to play is increased by the number shown in the container. After that the number of XG in the container resets to 2. If the cursor stops at the position "100", the player wins R100. If the cursor stops at the position "+", one XG is added to the XG container. On higher bets, the player is awarded monetary prizes and XG. XG depend on the bet and the winning combination. Once within an XG, there is a win or gaining more XG.

## CHILLI BABY
