

# Dreams of Asia™

## Introduction

Dreams of Asia™ is GTECH's first title released in the Gambler-Line of TRUE 3D™ games on the AXXIS™ 3D/39 cabinet.

It features a very entertaining, open ended **Free Spin Bonus** combined with a rich main game that gives you ample time on device.

Using 3D effects makes this game an experience to play.

### Top 3 Features

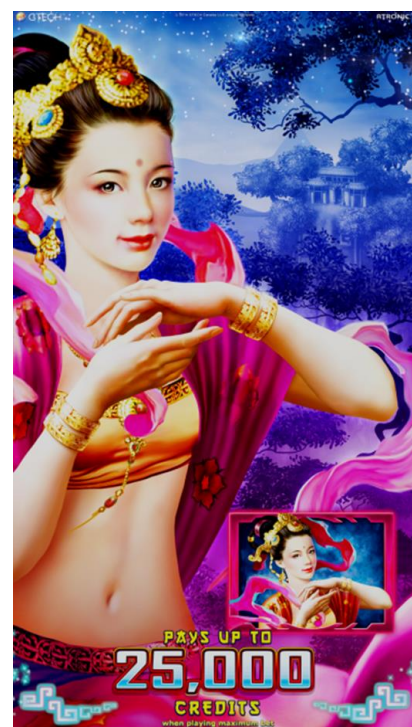

- High use of 3D effects during main game and bonus game

- Stacked symbols lead to very high main game wins

- Volatile, exciting virtually endless Free Spin Bonus

## Hooks

### *Unique Selling Propositions - USPs*

- Extensive use of 3D effects during main game
- Based on the very successful Icarus™ math model. The classic feel of the main game math remains, but in the bonus the average number of free spins increased dramatically.
- Stacked symbols and stacked wilds from the original game are complemented with a revamped scatter feature. Now there is heightened bonus anticipation during main game play.
- The majority of the main game wins are above wager. Frequent mid-range wins are won via stacked symbols. High wins are achieved regularly due to an unusually high prize-table.
- The frequent main game **Scatter Feature** awards lucrative mid-range wins and from time to time an extraordinary scatter pay.
- The **Free Spin Bonus** offers a breathtaking ride. Each spin could be the last, but the bonus seems like it could last forever! The win ranges are enormous and the bonus play is unforgettable.
- Dreams of Asia™ takes the eye popping excitement of True 3D™ to the next level – in the Bonus the princess Apsara feels so real, you could reach out and touch her!

### *Math Characteristics*

- The prize table in this game is unusually high. Players will enjoy most main game wins above their bet. Stacks provide surprisingly frequent mid-range and high-range wins.
- The Bonus math deserves a closer look. Each Bonus Spin serves as a cliffhanger with frequent high wins and sudden death with every handle pull.

### *Product Positioning*

Further extending the TRUE 3D™ product line, Dreams of Asia™ offers opportunity expand the 3D experience on the casino with an enticing Asia theme that stands out with rich, saturated colors and a strong math model.

As one of the first releases in the Gambler line of TRUE 3D™ games, the most impressive configuration may be as one of several Gambler titles placed in a banked approach of mixed titles. This complementary approach will provide variety and maintain higher demand for each individual title.

### *Competitive Edge*

An artistically beautiful game that uses advanced TRUE 3D™ technology to deliver dynamic base game wins. Both the base game and the unique free spin bonus have their origins in a highly successful math model that accentuates strong base play wins for the player. The bonus offers great variety for the player with the variable number of free spins.

## Details

### General

Once you see this game on a casino floor, the colorful bright top screen with the friendly, yet mystical floating princess Apsara invites you to sit down and play. Immediately you notice the TRUE 3D™ technology since the usual 'flat' screen now shows multiple layers of depth - a mystical landscape - below the bright reels.

Once you start to play and the reels spin, you notice the entertaining beautiful background music. The wheels stop and you see winning symbols rising a little towards you in the 3D Space and animate smoothly. Also the winning line is actually floating and color cycling in golden/blue.

- Designed to entertain, engineered for long play sessions and returned visits
- Surprisingly frequent mid-range and high-range wins
- Industry standard stacked reels brought to the next level with an exemplary presentation thanks to our game changing TRUE 3D™ technology
- This Bonus will draw a crowd. A rollercoaster of anticipation with high payout potential that always leaves the player wanting more.

### Base Game

Stacked symbols, stacked wilds on reel 2, 3 and 4, a **Scatter Feature** during base game and a **Free Spin Bonus** trigger bring a lot of entertainment during game play.

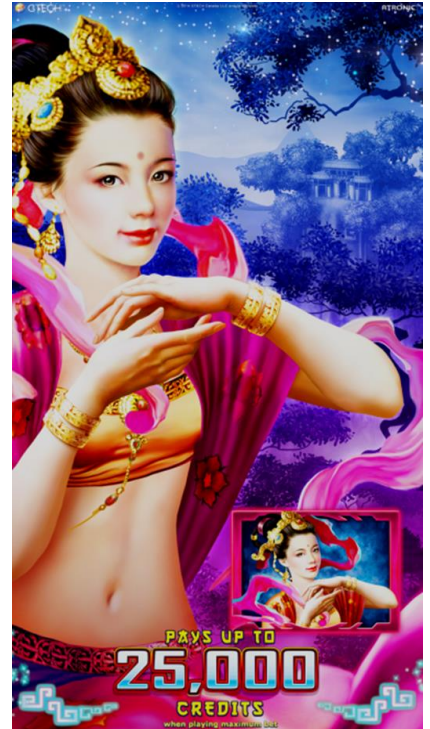

During the base game the high frequent **Scatter Feature** takes place.

When  appears on screen (only appears on reel 1) the **Scatter Feature** starts. Tension Spins for Reel 2, 3, 4 and 5

take place. If one or more  or  appear anywhere on reels 2, 3, 4 or 5 during this feature scatter prizes are awarded as follow:

- 2 symbols award 2 times wager
- 3 symbols award 5 times wager
- 4 symbols award 15 times wager
- 5 symbols award 50 times wager

### Bonus Game

If triggered the Portal symbol rises mystically out of the screen and moves towards your face!

3, 4 or 5 “Portal” symbols anywhere on screen trigger the **Free Spin Bonus** and pay a scatter prize. The more triggering symbols the higher the prize.

Then, princess Apsara will move onto reel 1 with the first Free Spin and advances to the next reel with each new spin. A new spin will occur each time the Lady lands on a green “Island” symbol. If the lady can cross through all five reels, 5x wager is awarded. The Lady continues to move from right to left and left to right until she lands on a blank position or 300 spins have been played. Each blank position on screen in each single spin pays a scatter award of 1x wager.
