SWEET SUNSHINE DELUXE

EDITION 8

EXPERIENCE THE WEALTH OF CHOICE!

All games below are included in the SWEET SUNSHINE™ game suite!

In **LINE ACTION** players may choose between the following core games:

In **GOLDIFY™** players can “goldify” symbols by touching them. The base games’ volatility depends on the player selection and so does the bonus.

1421 - VOYAGES OF ZHENG HE™ features a stacked wild symbol, which substitutes for all symbols except the bonus trigger symbol. 3 Map symbols pay a scatter win and the player may select one of 4 bonus features.

High wins are guaranteed in the Egyptian-themed thriller **MAGIC PHARAOH™**! The highest symbol, the Pharaoh, spreads his influence to his left and right for more wins.

In **GYPSY MOON™**, the Gypsy is wild. Three or more scattered Astro Sign symbols trigger the Gypsy Moon Free Game Feature, where players can win up to 600(!) free games.

Grab your bullwhip and follow **ACTION JACK™** on a thrilling escapade! The highest-paying symbol, Volcano, appears frequently. All symbols except the scatter symbol occur stacked.

THRILLER JACKPOTS features these proven top-performing DOGGIE CASH™ standalone progressive titles:

Players can experience the stacked wild symbols in **GLITTERING™** increasing the possibility of really high wins. The 4-level progressive jackpot can be won during the well-known DOGGIE CASH Bonus.

In addition to the Mystery Dog and the DOGGIE CASH Bonus, **GARDEN™** offers an individual Free Game Bonus, triggered by three Paw symbols appearing anywhere on reels 1, 3 and 5.

CLASSIC SLOTS features the following traditional volatile, low-line game:

In **BRILLIANT FRUITS™** all wins are paid left to right only. This classic slot game pays the top award for 5 Diamond symbols on a pay-line and has stacked symbols on all reels.

GAMBLERS' CHOICE features a top performing game in an extremely volatile version with rich-paying bonus features:

Come and explore the diamond filled cave of **MIGHTY MINER™ EXTREME** where the Miner is wild and substitutes for all symbols except scatter.

WINNING NUMBERS features the world-wide casino classic:

Available in both European (0) or American (00) roulette, and featuring two modes of play to suit players' preferences, **Master ROULETTE™** offers bet pattern memory, draw history, and on-demand previous game details. Superior 3D animation brings the ball and wheel to life on the top screen.
